

REMARKS

Applicants present the foregoing amendments in response to the Advisory Action dated May 11, 2006. The Examiner maintained the rejection of claims 77-85 and reiterated that claim 86 was allowable. Claims 77-85 have been cancelled solely in an effort to advance prosecution. Claim 86 has been rewritten in independent format. New claim 87 has been added and recites that the sFv molecule consists of the sequence of amino acids of SEQ ID NO:6.

Thus, all claims are now in condition for allowance. A Notice of Allowance is therefore believed to be in order and is respectfully requested.

Please direct all further communications in this application to:
